### Vysvětlivky

**A select** - jclear timber without sap rot, subtle colour contrasts, small wood knots allowed

**B natur** - healthy looking natural texture, darker colour contrasts, healthy knots under 30 mm, max. 5 % sap rot

**C rustic** - rustic appearance, strong colour contrasts, healthy knots and knots partially filled with putty, up to 10 % of sap rot

**D mix country** - very rustic appearance, many knots filled with putty, lengthwise cracks filled with putty, over 10 % of sap rot

**SMOOTH** - The surface is ground and gently cleaned to achieve a smooth and clean appearance.

**BRUSHED** - The surface is evenly brushed to bring out the texture of the wood.

**TEXTURED** - Intensively brushed wood with very rough surface.

**2VR** - 2-layer

**4PD-4V** - tongue-and-groove joint; slats micro-beveled on all four sides

**UV-oil** - The top finish is UV-oil applied on a brushed base pigment layer. This top finish is highly durable and creates a semi-matt appearance.

**A (assymetric construction)** anti-stretch layer 4 mm spruce

**S (symetric construction)** anti-stretch layer 4 mm oak

**OLD CLASS** - Aged surface with rustic detailing.
